

Primary Vocabulary

Bale: A large amount of hay or straw that is tightly bound with twine or wire and often wrapped in plastic for protection

Barn: Building where farm animals, their food and farm equipment are kept

Bull: Adult male cattle

Calf: A baby cow

Cow: Adult female cattle

Cud: Food regurgitated from the first stomach of the cow to the mouth and chewed again

Curd: A semi-solid form of cheese that is created when the milk sours or is treated with special proteins

Dairy: A farm that produces milk

Feed: Food for farm animals

Grain: Seeds or kernels from various cereal plants (corn, oats and wheat)

Hay: A dry form of grass, clover or alfalfa that is fed to cows

Herd: A group of cows that live together

Milk: A whitish liquid produced by female mammals containing proteins, fats, lactose and various vitamins and minerals; used to feed their young or to feed humans.

Milker: Person who milks the cows

Silo: A place where silage is kept, typically a tall, cylindrical, concrete structure or bunker

Straw: Stalks and stems from wheat, rye, oats or barley that are dried and used as feed or bedding

Teat: There are four teats on a cow's udder, through which milk is produced

Udder: The part of the cow's body where milk is produced
